

CHANGING THE WORLD *one child* AT A TIME

In 2005, a little baby named Lucas taught his parents (Scott and Alisa Dishong, founders of Project Lucas) that they might not be able to change the entire world, but they could change the entire world of one child. Project Lucas began in Kenya, Africa, with a clear purpose of helping children living in extreme poverty to see, feel, and hear the Gospel and equipping them to escape poverty.

Since 2007, thousands of children and their families have been given hope for a better future through Project Lucas. We share the gospel with impoverished Kenyan children while equipping them to escape poverty. By meeting needs, giving access to education, and investing in their communities, we're able to help change the world one child at a time.
